## Model HC-X series Precision Balance (10mg)

### Technical Specifications:

- Display: LCD with back-light
- Power: 220 VAC
- **Sensor: Loadcell**
- Square Pan size: 195mm x 195mm
- Material: ABS body cover, aluminium base and static resistant ABS
- Preheating time: 10-30mins
- Stabilization time: ≤5s
- Linearity error: ±0.3g / ±0.03g
- Function: Print, Counting, Tare, Unit conversion
- Auto-calibration (external calibration)
- Unit: g, ct, ozt. dwt, t, g
- Overload Indication
- RS232 interface

**HC30002X – 3000g**  
Capacity: 0g – 3000g  
Accuracy: 0,01g (10mg)

**HC50002X – 5000g**  
Capacity: 0g – 5000g  
Accuracy: 0,01g (10mg)
