

Lightning Protection

Lightning Protection kit

Modern weighing systems rely heavily on highperformance electronic components, which equally increase these components' vulnerability to disruption and damage that can be caused by lightning strikes.

The Sasco Lightning protection kit provides you with all the basic copper components to ground your weighbridge. We suggest this kit is ordered in conjunction with the Sasco Surge Protection kit for optimal use.

This kit Includes:

- 10x Earth Spikes
- 70mm Bare Copper Earth Wire
- Special LPK Clamps

Applications

Basic Lightning Protection
