

SASBRIDGE

Simple Reliable Quality

The **SASBRIDGE** is the Sasco entry-level industrial weighbridge designed to provide simple, reliable digitised accuracy with the ability to easily connect the indicator with a computer loaded with Sasco ProWeigh Lite software.

SPECIFIC FEATURES OF THE SOLUTION

- 18m weighbridge deck comprising 6 modules of 6m each.
- Designed for pit or above-ground installation.
- Maximum capacity of 60,000kg and axle loadings of 10,000 kg per axle.
- Supplied with complete civil drawings.
- Durable OIML-approved Sasco D700 indicator which is housed in a ABS casing.
- Ten robust OIML approved Sasco S16 Cylindrical Compression load cells with a record of proven reliability
- Digitised weighing accuracy through the load cells being connected via Sasco D-Link junction box
- All cables include plus 20m fly lead from junction to indicator in cabin
- 5 year warranty on deck.
- 12 month warranty on instrumentation
- Easy interfacing with Sasco ProWeigh Lite software (purchase separately)

TERMS AND CONDITIONS

Sasco's standard terms and conditions of supply apply to this purchase and these can be viewed at [Terms and Conditions](#)

In addition the following terms and condition also apply specifically to the purchase of the SASBRIDGE:

- a. The Deck is guaranteed for five years from the date of invoice against any defects attributable to faulty workmanship, fair wear and tear excluded and subject to this equipment being used correctly under recommended operating conditions and loadings for the application it was intended.
- b. Warranty is only on the deck structure and not on the paint. Standard specification is not suitable for coastal locations, it is a very basic paint and offers no corrosion protection
- c. The deck is not suitable for weighing dump trucks with high axle loadings.
- d. The indicator is guaranteed for 12 months from the date of invoice against any defects attributable to faulty workmanship, fair wear and tear excluded and subject to (i) this equipment being used correctly under recommended operating conditions and loadings for the application it was intended and (ii) surge protection being installed on the indicator and (iii) the weighbridge being protected with adequate lightning protection.
- e. The load cells are guaranteed for 12 months from the date of invoice against any defects attributable to faulty workmanship, fair wear and tear excluded and subject to (i) this equipment being used correctly under recommended operating conditions and loadings for the application it was intended and (ii) surge protection being installed on the indicator and (iii) the weighbridge being protected with adequate lightning protection.
- f. Neither party shall be liable for any indirect, special, incidental, punitive or consequential damages, including but not limited to loss of data, business interruption, or loss of profits, arising from the purchase of the goods comprising decks, load cells and indicators.
- g. Neither party shall be liable for any indirect, special, incidental, punitive or consequential damages, including but not limited to loss of data, business interruption, or loss of profits, arising out of the use of nor the inability to use the software supplied.
- h. In no event will Sasco be liable to any other user for damages, whether direct, indirect, incidental, or consequential, arising out of the use or inability to use software supplied.
- i. Except for liabilities arising from intellectual property infringement, Sasco's liability, if any, arising out of or in any way related to its performance of the services provided for under this quotation (and any subsequent order placed) shall be limited to the lesser of (a) all costs of material, labour, and other expenses required to correct any error caused by Sasco, or (b) the total value of the relevant component of the original transaction, and in no event shall Sasco be liable to pay for incidental, indirect, special, or consequential damages, even if Sasco should have foreseen the possibility of such damages.
